

For Immediate Release

Exotics DG Tour Series Putter is Personally Crafted for Feel and Performance

More isn't always better, less strokes on the greens means lower scores.

Batavia, IL (January 19, 2015) – The lineage of the David Glod putters continues with artful conception in the new Tour Edge Exotics David Glod Tour Series putters. Personally designed and hand crafted by president and founder David Glod to meticulous detail. In true Exotics fashion, David Glod Tour Series putters are truly one of a kind.

“Putters are the most personal club in a golf bag. My new Tour Series Putters have been a labor of love and I couldn't be happier with the results,” said David Glod, president and founder of Tour Edge. “The changes to this year's model are not only cosmetic, but the personal feel of the putters has been improved substantially. I'm proud to engrave my name on every Exotics putter.”

To deliver the ultimate in feel and touch, the putters are entirely CNC milled from a solid block of carbon steel. The milled X-grip face pattern provides unprecedented feel and control on the green and reduces skidding. The responsive, pure feel and feedback of the face design translates to incredible accuracy and touch. In addition, each putter has a hand-rolled leading edge ensuring that each stroke glides smoothly through the ball, even in the longer grass on the fringe.

The David Glod Tour Series putters feature three tour inspired designs with a high-toe profile to eliminate the tendency to raise the toe at address, causing putts to go left of the hole. Further enhancing the setup, the putters feature a True Temper step-less steel shaft that provides a clean appearance at address and a firm, responsive feel.

Two sophisticated finishes are available, a silver-bead finish or black PVD finish in three models: V1.3 (full offset cavity back blade), V2.3 (half offset cavity blade), and V3.3 (semi-mallet). Priced at \$249.99, the David Glod Tour Series putter comes with Tour Edge's lifetime warranty and a 30-day play guarantee. For more information, call (800) 515-3343 or visit www.touredge.com.

Located in Batavia, IL, Tour Edge manufactures and sells golf clubs under both the Exotics and Tour Edge brands. Exotics golf clubs are for those who demand the finest performing golf clubs in the world. With experienced designers and smaller production runs, Exotics by Tour Edge can bring futuristic technologies to the marketplace months, even years, ahead of its time. Exotics' manufactures the finest quality, high-technology golf clubs and hand-assembles them one club at a time. The company's clubs are distributed throughout the United States and the world. High resolution images are available at www.touredge.com (select media site).
